SUMMARY

Cybersecurity student graduating December 2026 with hands-on experience in Windows, Linux, networking, and AI-assisted development. Combines technical lab work with 5+ years of management experience in team leadership, employee training, and operational problem solving.

EDUCATION

Bellevue University

Bachelor of Science in Cybersecurity

Expected December 2026

Cumulative GPA: 3.84

TECHNICAL SKILLS

Systems: Windows, Active Directory, Group Policy, NTFS permissions; Linux (Fedora, Rocky Linux).

Networking: TCP/IP and DNS fundamentals, SSH, host firewalls, packet-capture analysis.

Scripting and Data: PowerShell and Bash fundamentals; cron scheduling; SQL, SSMS.

Tools: Parallels Desktop, VirtualBox, Nmap, Nessus.

AI: AI-assisted app and web development; local LLM deployment; hosted model integration.

TECHNICAL PROJECTS

AI-Assisted Development and Security Lab

- Built applications and websites using AI-assisted development, including a personal portfolio website.
- Deployed local language models and integrated hosted AI models for security research and IT lab workflows.

Active Directory and Windows Access Control

- Managed users, computers, organizational units, and security groups; configured logon-message Group Policy and NTFS permissions in a Windows lab.

Linux Administration and Shell Scripting

- Managed Linux users, permissions, packages, and services; modified a system-information script and scheduled backups with cron.

PROFESSIONAL EXPERIENCE

Chipotle Mexican Grill

September 2020 - Present

Apprentice (Assistant General Manager)

May 2025 - Present

- Lead daily restaurant operations, coach team members, and coordinate priorities during high-volume service.
- Train employees on operational procedures and resolve customer concerns with clear communication and follow-through.

Service Manager / Service Leader

May 2021 - May 2025

- Coordinated shift assignments, coached employees on procedures and safety, and resolved customer and operational issues.

Crew Member

September 2020 - May 2021

- Supported customer service and daily operations; promoted to Service Manager in May 2021.
